Surfers will help policing problem

Newport Beach surfers are organizing a surfing club to help police the local water sport.

City Manager Harvey Hurlburt made this announcement at Monday evening's Council meeting. He said that surfers have been upset because of the problem caused by an undesirable element, and therefore have decided to organize a strong group and do some self-discipline. One

organizational meeting has already been held.

The city manager said that the ordinance adopted May 10 be given a trial during the summer, because it will provide guidelines for revision.

Councilwoman Doreen Marshall recommended that a meeting be held with the surfers after the summer is over and desired changes in the ordinance can be discussed at that time.

CAR SMASHES INTO GARAGE DOOR IN CON

Mrs. Victoria Lemmon of 777 W. Wilson St., Costa Mesa, a 20-year-old mother of 2, rounded the corner at the corner of 3rd Ave. and Narcissus Ave., Corona del Mar, Friday afternoon, ran over the curb and smashed her car into the garage door of Lucy Holloway, 601 Narcissus Ave.

"I wanted to kill myself," Mrs. Lemmon sobbed to police. "I wanted to hit the tree, but I missed and hit the garage instead." She was committed to Orange County Hospital.

FLAG PROJECT GETS OKAY

After considerable critical discussion, the Newport Beach City Council agreed Monday evening to provide city manpower for the Corona del Mar fly-the-flag program.

Council authorized the drilling of 35 new holes in the sidewalks along Coast Hwy. and inserting of cast iron pipe sleeves to hold the flagpoles. The city will also clean out existing holes and insert the sleeves in them.

When the matter first came up Monday evening, Councilman Jay Stoddard said he was dissatisfied with the sleeve mechanism, and Council deferred action until more information was received.

A short while later attorney Carl Kegley arrived at the Council meeting to represent the 2 sponsoring organizations, the Chamber of Commerce and Exchange Club of Corona del Mar. He said that about 70 merchants had signed up for the flag program. The merchants are paying \$20 each the first year, and \$10 annually thereafter. The Exchange Club will be in charge of providing the flags, putting them up, taking them down, and storing them.

"Other areas of the city have done this themselves," said Vice-Mayor Don Elder. "We don't know where the holes are to be drilled," Councilman Stoddard added.

City Manager Harvey Hurlburt submitted the estimate of \$110 for drilling 70 holes and inserting the sleeves. Mr. Kegley said holes had been drilled some years ago,

and about 40 more are needed.

"I don't think the city should balk at such a program," Mr. Kegley remarked. "That's our business," retorted Councilman Stoddard.

He asked about the manner in which the sleeve would be capped when the flags are removed.

"I give you my word; the cap on the sleeve is flush to the sidewalk," said Mr. Kegley.

"I'm not interested in your word," Councilman Stoddard answered back. "I want to see the plug. I am an engineer and you are a lawyer, and you are not doing a good job of explaining this thing."

Mrs. Kegley, who had accompanied her husband to the meeting, rose up from her chair in protest and walked

\$2,000 regatta bid favored

The Newport Beach City Council gave favorable consideration Monday evening to the Newport Harbor Yacht Club's request for \$2,000 for the Gold Star world championship regatta to be held here in August.

"This is a very worth while thing," remarked Councilman Jay Stoddard. Council approved his motion directing City Manager Harvey Hurlburt to put the item in the 1965-66 budget and to recommend something specific that the \$2,000 could be used for.

NHYC Commodore Henry Mackel suggested trophies.

No stand on unification

The trustees of the Newport Beach Elementary School District had an audience of about 25 Tuesday evening at Horace Easign School when they sat down to discuss the impending June 22 unification election, and to decide whether they should take a position regarding it.

After much give and take with the audience, and then among themselves, they declined to take a stand. Not that they didn't all think unification would be detrimental to the district, but they had varying feelings on the subject which could not be drafted into a resolution.

One trustee, Dr. Donald Duncan, said that he would vote for unification, but only because he felt there was no chance that the state legislature would modify the law, and that it was best to get on with the job of education.

The other 4 board members felt that it was morally wrong to vote for unification when they disagreed with the basic concept, and saw such a vote as an encouragement to the state to continue passing unpopular laws.

Following pre-election meetings on unification have been scheduled:

Monday, June 7, at 7:30 p.m.—an information meeting in the oral arts room at Corona del Mar High School.

Wednesday, June 9, at 7:30 p.m.—official public hearing at Newport Harbor High, called by the Orange County Committee on Redistricting.

Monday, June 14, at 7:30 p.m.—an information meeting in the Costa Mesa High School cafeteria.

Brochures giving unification information will be distributed at all 3 meetings.

PILOTING COURSE SET

A free class in piloting and seamanship will be given at the Newport Harbor Yacht Club by the Balboa Power Squadron, starting Monday, June 7, at 7:15 p.m. The class will meet for 6 Monday evenings, covering basic piloting and seamanship for the beginning and experienced boat operator.

out of the Council chambers.

Councilman Stoddard continued, "The city normally has no responsibility for this. It's taxpayers' money we're spending."

"Why can't the Chamber do the whole project?" Councilman Al Forgit asked.

"Can you get us the locations where the holes are to be drilled?" Mayor Paul Gruber inquired of Mr. Kegley.

"Yes, we will provide the street addresses," Mr. Kegley replied.

"It's too bad you didn't do the whole thing," said Vice Mayor Elder. "It seems that it's always easier to ask for taxpayers' money instead."

He voted against the motion, which was made by Councilman Stoddard and approved 5 to 1.

"That's what we're interested in," said Councilman Stoddard. "We're prohibited from just handing out money."

"Normally this type of expenditure comes from the advertising budget," City Manager Hurlburt said.

"The city is clearly authorized to advertise," commented City Attorney Tully Seymour.

"This doesn't need advertising; it needs help," said Councilman Stoddard.

From Councilman Al Forgit came the comment: "You don't want to give a few hundred to the Chamber, and throw away \$2,000 for this."

WINNERS of the Orange Coast College Plaque, highest service award, include, left to right, Diane Holt of Costa Mesa, Sam Downing of Newport Beach and Judy Burns of Costa Mesa. The awards were presented at the OCC honors night.

Another step taken on street lighting

Legal machinery for the West Newport street lighting was set in motion Monday evening.

The Newport Beach City Council adopted a resolution declaring that public convenience and necessity require the immediate construction of street lighting.

Monday's meeting was the time set for hearing protests. The only speaker from the audience was Don Hart, 1204 46th St., who did not object to the street lighting project, but suggested that the lights be hung on the Edison Co. light poles instead of installing additional poles.

City Manager Harvey Hurlburt said it is time to look to further improvement of the area, when power lines may be put underground. In such an event, additional street lighting work would then be required if separate poles are not now installed, he said.

Fifteen written protests had been received, representing 2.72% of the proposed assessment district. Construction costs for the project are now estimated at \$48,500, somewhat lower than the preliminary figures, Public Works Director Joe Devlin reported. He said that the project could be completed before the summer of 1966 if there are no undue delays.

The engineering firm of Simpson and Steveling was named by the Council as engineer of work. A more exact cost of the project will be obtained by the firm. The Council is expected to order plans and specifications in 2 weeks.

The Council also:

Adopted Ordinance 1129, establishing C-N-H and C-O-H zoning for the future Newport Center site north of Coast Hwy. and west of MacArthur Blvd.

Authorized the transfer of the Newport Pier concession agreement, held for many years by George Hiner, until his death May 1, to his son-in-law and daughter, Noel and Betty Lou Phoenix of Costa Mesa.

Gave recognition to Lew Merrill, city employee since Aug. 10, 1925, assistant water and sewer superintendent since July, 1955, who is retiring as of June 25.

Delayed action on final map for Tract 5877, between Corona del Mar High School and Big Canyon, East Bluff, because all necessary documents were not available; directed the matter to June 14.

Marine life is devastated

Councilman Lindsley Parsons expressed concern at the Monday afternoon City Council study session that Little Corona beach is being devastated of marine life.

Everything has been stripped to the low tide line," he said. "Busloads of kids come from other areas and fill their buckets with everything they can get hold of. And on their way back home they dump their pails when the stuff begins to smell."

The Fish and Game Commission has considered establishing Little Corona as a marine life preserve, but no funds have been made available.

"Let's explore this and see what can be done," said Mayor Paul Gruber.

Slightly over 100 spectators, about 1/3 of them affected property owners, filled the Newport Beach city council chamber Tuesday evening for the first public airing of a \$22.2 million reclamation project known as Lafayette Square.

In summing up the meeting, the project mastermind, architect Richard Jay Smith, said, "With as little opposition as we've seemingly had here tonight, I feel very good."

He began by showing perhaps 50 slides of the existing structures in the 8-block area bounded by Newport Blvd., Lafayette Ave., 32nd St. and 28th St., in the heart of old Newport. As he ticked off the street corners from which the shots were taken, one could sense a growing sympathy for the plan on the part of the audience. There was an awareness that his protestation against the newspapers for referring to this as a downtrodden area could not be strong, and a discounting of this observation that "the picturesqueness has sometimes been used to advantage."

As one property owner aptly put it: "Let's consider our alternative. No one of us can ever do much on our own. No one else will ever devote as much time and money to this as Mr. Smith has done. If we reject the project, we face the prospect of continuing to live with some rather expensive slums."

And Lee Schonek, a 32nd St. realtor, pointedly reminded the property owners, "You've come to me to sell your land; well, I haven't sold one of these shacks yet, and you're still paying taxes."

Mr. Smith said, "The project will net you a better return on your money than you're getting today."

Alice Findley, his financial consultant, detailed the ramifications. The total investment is figured at \$22.2 million, made up of \$5.7 million for land acquisition, one

million for site preparation, and \$15.5 million for construction. A \$5 million stockholder's equity would enable the corporation to obtain the necessary mortgage of \$17.2 million. The projected annual rental income would be \$2,934,400, figured conservatively and allowing for a vacancy factor.

A parcel assessed at \$25,000 would entitle the owner to 1 1/2 share of stock, and after 10 years should have returned the owner almost \$30,000 in capital gain. There would be no capital gain for owners to declare on their income tax at the outset; property would merely be exchanged for stock in the corporation.

Once enough of the property owners have "signed up," and that is what they'll now be called upon individually to do, the joiners will incorporate, get financing, and purchase the property or lease it for 99 years from those who do not wish to join.

Then, sometime around a year from that date, construction would begin on 7 apartment buildings with first floor shops, 2 retail stores, 3 restaurants, a theatre, and a 138-room hotel. Later, if all went according to plan, a multi-storied apartment building would be erected.

It is this gap between incorporation and the start of construction, during which zoning would be changed, a traffic study conducted, underground utilities altered, and the property cleared through escrow that caused some property owners to express reservations.

Fred Murray of 1413 1/2 W. Bay Ave., Central Newport asked, "Won't tenants start moving out if they know that the building is going to be torn down in 6 months?"

After the meeting, Mrs. Findley gave an answer, "The tenants can't up and move overnight; it's to their advantage to have the time."

But others expressed worry that their income from the property would be shut off during this "red tape" period, and there appeared to be no other answer than that this was a privation that would have to be endured to launch the project.

Commenting on the fact that some of the properties are mortgaged, Roy Gustafson, who owns the Mesa Motel at 415 N. Newport Blvd., Newport Heights, plus a parcel in the affected area, remarked, "They really hold the stock, and they've reserved the right to decide whom they want to sell to."

To that, Mr. Smith's legal counsel, Howard Alphson of Los Angeles, answered that the master lender would come in and pick up the leases, and the property owner would be given stock in proportion to the equity in the property he owned outright. Mrs. Findley expressed the hopeful opinion that no more than 50% of the 128 parcels involved would be so encumbered.

A special difficulty exists for 6 of the 78 property owners involved. Edward Martindale, who owns a furniture shop in the M-1 zoned area, acted as their unofficial spokesman by objecting: "I've been here 12 years and am not of retirement age yet, but I would lose my occupation, my way of life. Favorably located sites are difficult to obtain."

Another man, who has a boat propeller shop, said, "It's an inconvenience to have to pick up and move my business after 18 years. It's no problem for those who are landlords, but for those of us who work here it's a different story."

"This is one of the adjustments we'll obviously have to make," Mr. Smith reassured them. "We'll just have to try and compensate and get the marine services together in one area, and have the facilities built in advance."

"Let's not hurt boating and kill the goose that lays the golden egg," a man in the audience said.

LT. TOM H. NIQUETTE, son of Mr. and Mrs. George A. Niquette of 8065 Alameda St., Downey, and former teacher in Newport Beach, has been awarded U.S. Air Force silver pilot wings upon graduation from flying training school at Webb AFB, Texas. He is being assigned to Charleston AFB, S.C., for flying duty. He is a graduate of Newport Harbor High School, and received his B.A. degree from the University of Redlands. His wife, Judith, is the daughter of Mr. and Mrs. Ken Sands of 637 St. James Road, Cliff Haven.

Mrs. Barrett dies at 68

Mr. Johnson is advertising manager for the Santa Ana Register. He resides at 401 38th St., Newport Island, with his wife and daughter.

Other officers to be installed are Sherman Hart, 1st vice president; William O'Keefe, 2nd vice president; Joe Goodall, 3rd vice president; Harold Reichner, chaplain; Roger Spencer, sergeant at arms; Kenneth N. Johnson; historian; and Leonard Morgan, judge advocate.

A cocktail reception will begin at 5:30 p.m., dinner at 6:30, the installation ceremony at 8, and dancing at 9:30. Admission will be by a donation of \$2.50, with a reservation.

B.I. project is approved

The Balboa Island Improvement Assn. received approval Monday evening from the Newport Beach City Council for a street-end beautification project.

BIFA will install new trash containers at 35 street-ends and at 8 locations on Marine Ave., replacing the cans now provided by the city.

Lyle Finley, representing the BIFA, said that the new containers, which have fiberglass inserts for removal and emptying, are intended for use by passersby, not for residents. He said that the same type container is in use in the Westcliff shopping center and has a good record of service.

In giving approval, Council specified that city containers will be replaced at locations where the new containers prove inadequate.

IF LAWS WOULD WORK, WE'D ALL BE RICH

The Costa Mesa Chamber of Commerce is to be commended for its opposition to an Assembly bill which would increase the state minimum wage. It takes courage to oppose a popular issue.

It is certainly a worthy objective to increase wages, but legislation to force a wage increase will do exactly opposite of its purpose: in the long run it will increase unemployment instead, and also increase the cost of living.

The noted economist, Henry Hazlitt, explains it this way: "There are all sorts of indulgences delightful at the moment but disastrous in the end." So it is with a minimum wage law. The immediate effect is delightful to those who do receive a pay increase. But the inescapable consequences cannot be avoided, because economic laws of supply and demand cannot be repealed by man-made law.

If legislation really could solve the problem, how easily our economic problems could be ended! The cruel fallacy of this method should be apparent to all who have analyzed the failures of the legislative efforts of the New Deal, Fair Deal, New Frontier and the Great Society. Legislation cannot create wealth; it can only redistribute wealth, which is the bankrupt method of socialism.

LET'S BE CONSISTENT, MR. PRESIDENT

"Whose civil rights, Mr. President?" That is a pertinent question to ask of Lyndon Johnson, who has made civil rights legislation one of his major objectives. Just last week he officially set about to carry out a campaign pledge, asking Congress to repeal the Taft-Hartley Act provision that allows states to adopt right-to-work laws.

The privilege of voting is of great importance. But it is certainly secondary to the right to hold a job without being forced to join a union. If President Lyndon Johnson is sincere about his concern for civil rights, he should be consistent in his compassion and support the basic justice of protecting an individual's right of free choice.

LET'S STOP BEGGING — AND DO IT BY OURSELVES

We all felt the pain of tax paying time a little while ago, and now comes budget making time, which determines the amount of pain for the next tax bills. Now there is a fine time for all of us to make a pledge not to reach out for hand-outs from the public treasury, and then perhaps we can start chopping down the size of those budgets, and thus the size of the tax statements.

This restraint has to start at the grass roots level. Perhaps it could catch on at the county level, and in Sacramento, and even in Washington, D.C. All this begging for public funds starts with the individual, after all. Why don't we all agree to stop asking for tax money to promote some pet activity that we claim is "a worthy project" and "for the public good."

For example, why should local yachtsmen ask the City Council to give tax money to help pay some of the expenses of the International Star Class yacht races here next August? Indeed, why should the Corona del Mar Chamber and the Corona del Mar Exchange Club ask for city help to carry out their "fly-the-flag" project? These are just 2 worthy projects that can be worthily handled by adopting the slogan, "We want to do it by ourselves."

GOVERNMENTS & NEWSPAPERS

Bucyrus (Ohio) Telegraph-Forum

Thomas Jefferson once observed that, if he had to choose between government and no newspapers or newspapers and no government, he would much prefer the latter.

And Jefferson, usually a sage man, was on firm ground. For he knew, both from personal observation and the study of history, that it is the nature of political governments to work in secrecy, amass power and grow; and that, in the absence of newspapers with the freedom and courage to ferret out the secrets of government and expose them to public view, the embryo monster in government could not be held in check. Thus when it came to a choice between government and newspapers, Jefferson unhesitatingly chose newspapers.

Newspaper headlines: "March Leaders Deny Wholesale Promiscuity."

What I saw was retail. John Herbers in the "New York Times" reported April 20, 1965: "We work closely with the John Birch Society and similar groups," said Robert M. Shelton, the 36-year-old Imperial Wizard of the United Klans of America.

Either Shelton or Herbers was lying. There is no similarity, no connection, and no co-operation between the John Birch Society and the Ku Klux Klan. I know many Birchers. They are the most dedicated, most patriotic, most courageous, most moral and religious group of people in this land. The leftist press has led the nation to believe that our southern sheets are literally crawling with Ku Kluxers. On my Scout's honor, I don't know a single Ku Kluxer even by name — except Justice Hugo Black. And I read that he'd quit, or was trying to. Sheets are for sleeping, not for parodying. I have no use for people who hide under sheets. Nor for the "New York Times." Incidentally, I wonder if the "New York Times" is still "working closely" with Killer Castro, whom it promoted to the American people as the George Washington of Cuba?

Negroish Congressman Adam Clayton Powell asked recently: "We recognize Russia, why not Cuba?"

I propose that we de-recognize Russia and Adam Clayton Powell, who is a moral disgrace to the House of Representatives and to the nation.

Cuba was given to Castro and the Russians by the same crowd of fools, do-gooders, and traitors in our government who gave China and a good part of the rest of the world to the most diabolical, criminal conspiracy in human history. "Doctor" Castro has somewhat disappointed "liberals" who said in 1959 that he was not a Communist. Guess what their "strategy" is now? They're

cautiously advocating that we "make a friend out of Castro" by "recognizing" his government and including him in our foreign aid program. (We give your grandchildren's seed corn to about 88 other friend and enemy, mostly enemy, nations, so why not to Cuba?) The pinks who brought us to the brink still profess to believe that we can make good Communists out of bad ones by bribing them. The only good Communist is a dead Communist, including those in our country.

A "liberal" columnist waxes ecstatic over the proposal by President Johnson that we allow Soviet leaders to appear on television regularly and propagandize the American people. Well, if Kossygin and Brezhnev could just replace Frontley and Pinkley, perhaps we wouldn't suffer much.

News item: "Russians Claim to have Produced a Two-headed Dog."

Kossygin and Brezhnev?

"Minimum Wage Is Slave Wage, Say AFL-CIO Leaders Convening In Miami Beach."

"Labor" can expect slave wages in a Soviet America. Under Communism, the weekly paycheck for many Communist officials is not as high as the unemployment check is for American unemployed. If the Comrats take over here, and the Unions are certainly doing their part to help, unions will be outlawed, except the government-controlled ones used to spy on all of the workers. There is no unemployment under totalitarianism. They shoot enough people to make the people and the jobs come out even. The Communist laborer can't quit, strike, or even change jobs without permission from the government. As President Kennedy's top left-hand man, Arthur Schlesinger, Jr. has said, "Under our system of democratic Socialism, unions will be used to discipline the workers, not to represent them."

Switches? Paddles? Firing squads? Or will they just have to stay after work?

A SPECIAL OFFER

(Continued from page 1)
NEWPORT HARBOR ENSIGN, 2721 E. Coast Hwy., Corona del Mar, Calif. You will receive your policy in the mail.

If you are presently a subscriber, you may obtain this coverage for only \$3 as long as you continue your subscription.

This special subscriber's insurance policy pays \$15,000 and more for freeway

accidents, \$10,000 and more for accidents on scheduled airlines, \$3,000 and more for sports accidents and \$1,000 and more for other accidents including automobile, pedestrian and accidents at home, at work, at school or play; \$3,000 to \$4,000 is paid for specified sports accidents (other than professional sports). Included are swimming, skiing, boating, fishing, archery, golf, little league and other organized school athletics, hunting (in permit areas) skin and scuba diving and horseback riding.

More and more drivers are using the expanding system of freeways and express highways throughout the state, nation and world; \$15,000 is paid for freeway death claims. And \$1,000 is added for each year the policy is renewed. After five years, the freeway maximum benefit totals \$20,000 — and coverage includes freeways anywhere in the world.

Ensign subscribers who travel on commercial air schedules anywhere in the world will have \$10,000 — \$15,000 in coverage as constant protection. This coverage is just ONE of the policy's many features.

A sum of \$3,000 is paid for fatal accidents in which the insured is riding either in a bus or taxicab. This is another coverage feature for people who travel throughout our state, the nation and the world.

Many other forms of accidents are covered — whether they occur at home, at work or at school or play. The policy pays \$1,000 for other accidental death and also provides a specified injury and hospitalization allowance schedule.

Any member of an Ensign subscriber's family is eligible for this subscriber's coverage. You may insure anyone — regardless of age. NO physical examination is required. There is NO reduction in benefits for those past 60.

Many sections of the policy increase in value each year when the policy is renewed. In the freeway and air travel categories, for example, the policy value increases \$1,000 per year for five years.

Besides all these features, this Accident Insurance policy includes a Money-Back guarantee. This guarantee gives you the right to examine the policy for ten days and, if you are not satisfied with the policy, you may return it and the premium you have paid will be refunded in full.

No matter where you go — this special Accident Insurance policy, available through the ENSIGN, protects you regardless of any other insurance you may have including workmen's compensation.

SCHMITZ REPORTING FROM STATE SENATE

District 35—Orange County

Last week Senator McAttee's bill for compensatory aid to "culturally deprived children" passed with only 4 dissents. It will eventually cost California some \$100,000,000 to accomplish the bill's ill-defined objectives.

In the meantime, a bill I authored which would allow junior college districts to establish 4 year college programs has received considerable criticism in Orange County for "raising taxes."

The irony is that junior colleges have the lowest cost-per-student factor in state higher education. In addition, the JC would be authorized to collect tuition for upperclassman studies. Those graduates would receive their bachelors degree with less public money (from taxes) than those produced in state colleges or universities.

Even more important, the bill doesn't require a 4 year college. It's optional. One district cannot be taxed for what another does, or does not do.

At any rate, the bill is guilty as charged, of altering the 1959 Master Plan for education. I believe times change (in 1959 Castro came to power as the George Washington of Cuba, and Dick Nixon was seen in a Moscow kitchen arguing with Nikita whatzisname) and a review is in order. At my request, SB 1062 was referred to interim study by the Committee on Education.

I sincerely believe that study will support my convictions that local communities can bring greater economy, more practicality, better courses, turn out finer graduates than the state will ever produce through its inherently bulky bureaucratic control.

Incidentally, Sen. Schrade has indications that the University of California lost \$1 million or more in legacies because of the Berkeley riots. Gigantic U of C may spurn a paltry \$1 million, but I imagine any small college would welcome such bequests.

Because your position on the freeway is the same as ours, we more than appreciate the time and space you have given to inform the people of this area the real facts on this vital subject.

Sincerely

ZONING CHALLENGED

Publisher of the Ensign

Our attention has been drawn to your publication of amendments to Ordinance 1958 concerning county C-1 zoning of Cagney land, in line of the possible freeway (actually declared) — with the general effect of increased cost to us all if this path is followed.

This zoning change seems to be out of the public interest at this time, until the freeway path has been established, and especially so as long as this has been designated and action started in court by the freeway committee.

As we see it, this can only result in tremendously increased cost to the taxpayers for this section of the freeway, and as such the board of supervisors should be challenged on the wisdom of this zoning at this time.

Respectfully,
Philip J. Rapp

FROM THE BIBLE

It is a faithful saying: For if we be dead with him, we shall also live with him:

If we suffer, we shall also reign with him: if we deny him, he also will deny us:

If we believe not, yet he abideth faithful: he cannot deny himself.

Of these things put them in remembrance, charging them before the Lord that they strive not about words to no profit, but to the subverting of the hearers.

Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth. (II Timothy 2: 11-15.)

Checking the direction of the wind for the long weekend coming up... and setting their sails for Catalina... James and Gloria Braden on the "Rainy Day," Paul and Barbara Connolly on their "Chan-Kit-Ching" (named after their overseas foster child) and Jack and Lou Billings on the "Orion" all of Lido. Chances are there will be a regatta of Islanders 32 at Whites Cove.

Long time radio and TV personality Harry Von Zell acted as master of ceremonies last weekend at an elaborate appreciation dinner when Orange County paid tribute to the patriotic work done by the Freedom Center at Knott's Berry Farm at the Newport Inn. Special awards were given to William Fort and Walter Knott. Cleon Skousen spoke on "The Vital Role of Patriotic Education." Among the over 400 guests were former governor Goodwin Knight, writer George Todt, Ben Reddick of the Valley Times, Dennis Carpenter, Tom Hoag, Ted Loeffler, Dick and Jennie Richard of Irvine Terrace, Bill and Derry Marring of Laguna, and Jim Petsch and Bob and Barbara Haviken of Balboa Island.

The Lido Anglers Dinner was a smashing success with as many youngsters as adults hovering over the bar-b-que. Bud Godfrey brought underwater films... showing even diving under ice... as well as Catalina shots. The cake

contest was won by teenager Anita Martindale... hers was in the shape of a fish, and delicious! Other anglers were Ray and Louise Woolsey, Bill and Barbara Haskell, Jim and Fran Martindale, Jack and Bette Davies, Jack and Lou Billings, James and Gloria Braden, Jerry and Betty McClaire, Bob and Doreen Marshall, Don and Fern McAnlis, Herb and Bea Riley, Lucille Wilson, Dick and Sally Sorenson and Dan and Pat Wedman.

Big doin's at the Balboa Bay Club... the Adoption Guild Tennis Tournament this weekend and next... followed by their annual Ball. A gala cocktail party will proceed at the Irvine Terrace home of John and Claire Bissell with co-hosts Erle and Donna Halliburton of Cameo Shores and Jim and Lois Hines of Harbor View Hills. Guests will include George and Harriett Carrington and Joe and Ann Ricca of Cameo Shores; Jim and Gloria Weddle, Don and Carol Perkins of Irvine Terrace; Allan and Shirley Browne of Costa Mesa; Al and Nancy Auer and Nolan and Mary Frizzelle of Newport; Jessie and Cecil Shirer of Dover Shores; John and Janet Klug of Bayside Drive; Earle and Dorothy Calkins, Bill and Pat Walker, Mark and Betty Soden and Herb and Helen Reuter of Harbor View Hills; Don and Lucy Woodward of East Bluff; Jean and Judith Loubet of Balboa Island; and Natcho and Marta Lozano, John and Sonny Elliott, Ken and Barbara Nelson, Rex and Camille Reno, Don and Nancy McLone, Randy and Cecilia Presley, Horace and Evie White, Frank and Fritzie Williams and Bill and Pat O'Rielly, all from Lido, and Jack and Pat Holander, who are visiting from Oklahoma.

DAR members will provide luscious salads at their annual Salad Luncheon at the picturesque Peninsula home of Margo Corkett on June 4th. Proceeds will be spent on the DAR history medals for the elementary school youngsters.

The birthday was no surprise, but the luncheon was... for Barbara Haskell of

Lido... given by Pat Hadden, also of Lido... with neighbors, Jennie Paley, Ruth McNeese, Betty Godfrey and Bea Riley helping blow out the candles.

Jack and Marge Rice of Corona Highlands look like they could be celebrating maybe a 10th wedding anniversary... but it is really 25 years... and to wish them well are daughter Terry and son Wayne and his wife, Linda of Mesa Verde.

Mis-Information: Apologies to Jeanne Beek and Dr. Joseph Bush for the item concerning them in this column last week. Not true!

Although the hundreds who attended the Art Cruise and Collectors show presented by the Fine Arts Patrons of Newport Harbor were a mite foot weary, they all agreed that it was a magnificent success. The lovely Peninsula homes of Randall F. Geddes, Charles Cotton and Bryon Farwell were visited by boat, followed by a look-see at the fabulous yacht "Mustang X" owned by George Gaudins.

Girl freed from rocks

Police freed a 13-year-old Santa Ana girl, whose head was wedged between 2 rocks, at 9 p.m. May 19 along a Corona del Mar bluff.

Karen Franke, together with 3 other girls who are wards of the court and are quartered at David MacMillan School in Santa Ana, was walking on the rocks near the surf below Ocean Blvd., at Orchid Ave., when she fell. She screamed as she struck her head, then lay unconscious for 5 minutes.

Firemen arrived a few minutes after the police, and carried the girl up the cliff in a basket stretcher. Captain John Brannon and James Innes of the fire crew suffered blisters, cuts, and bruises in working the stretcher apparatus.

The girl was taken to Hoag and then transferred to Orange County Hospital. She sustained head injuries, a possible broken right arm, and cuts and bruises.

About that boulder in your eye

"Got something in my eye," the customer said. "Feels like a boulder. How about taking it out?" He was hurting and wanted help then and there. The pharmacist remembered hearing about another man whose "something" turned out to be a steel splinter embedded in his eyeball. He advised him to see his physician. Prompt surgery saved his sight. So, we're careful. And if we seem overly cautious sometimes, remember—we're pharmacists, not physicians. We work with doctors, dispensing the drugs and medications they prescribe. But we don't practice medicine.

CITY COUNCIL NEWS

(Continued from page 1)

the city a 60-foot right-of-way on 5th Ave., Corona del Mar, from Larkspur Ave. to Poppy Ave.

• Authorized the recruitment of a deputy city clerk, to increase the staff to 2 full time assistants in addition to City Clerk Margery Schroeder; this sets the staff number at 3, a reduction from the present 3½.

• Expressed willingness to accept dedication of Ford Rd. between MacArthur Blvd. and Jamboree Rd., past the Aeronautic site, as a public street, but referred the matter to the staff for additional information; Council members agreed that acceptance of the street would mean the installation of a traffic signal at MacArthur Blvd., costing the city perhaps \$7,000 as its share; the city's share of widening Ford Rd. will be about \$39,000.

• Approved the pilot project of testing 10 metal litter baskets donated by Newport Balboa Savings and Loan Assn.; the baskets are to be attached to poles and will be serviced and emptied by city crews.

• Agreed with City Attor-

ney Tully Seymour's ruling that the "Beach Boy," a tiny canvas shelter for beachgoers devised by Sunrise Industries Inc., does not come under the prohibition of the code provision which bans umbrellas with side curtains, thus apparently giving the O.K. for beach use.

• Received a request from the Bell Gardens city administrator asking for support of Assembly Bill 2844, requiring liquor sale applicants to file statement of compliance with local zoning, community planning and limits set by state law in relation to population; referred the matter to the Council legislative committee.

• Authorized the execution of agreement with County Sanitation District 5 for collection of new sewer connection charges, to go into effect July 1, establishing a fee of \$6 for each plumbing connection, but setting the minimum of \$120 for all new construction, as differing from remodeling of, or additions to a structure already connected to an existing sewer; the new fees will help meet capital improvement costs.

Charles Kyte dies at 79

Charles Kyte, 79, died late at night May 19 after firemen attempted unsuccessfully to revive him in his home at 312 Orchid Ave., Corona del Mar. He had lived at that address for 35 years, originally purchasing the 60-foot lot for \$250. For many years he was building inspector for the Newport Beach Elementary School District.

Mr. Kyte was an importer by trade. Of late, after his wife died about 10 years ago, he relaxed as an artist. He is survived by 2 stepdaughters.

HERBERT SAGERMAN IS DEAD AT AGE OF 46

Survivors include his wife, Betty; a daughter and a son, Victoria and Ricky, both of Sherman Oaks; parents, Mr. and Mrs. Joan Robb of Newport Beach, and Mrs. John Virtue of Pasadena.

ROY MCCARDLE BECOMES BOY'S CLUB PRESIDENT

Roy McCardle, a partner in the Costa Mesa firm of Wells and McCardle Realtors, was installed May 13 as president of the Harbor Area Boy's Club. He followed Costa Mesa City Manager Arthur McKenzie, who headed the Boys' Club board the last 2 years.

Any park funds for NB?

City Manager Harvey Hurlburt was instructed Monday evening to see if Newport Beach can qualify for the \$55,000 due to the city from the state-wide recreation bond issue.

These funds can be used only for parks of 50 acres or larger. Possible projects to be examined for eligibility are construction of restrooms on the Newport-Balboa ocean beach and purchase of privately owned lots along the ocean front for addition to the ocean beach recreation area.

Mr. Hurlburt said it appears impossible to use the funds for purchase of submerged privately owned lots in the Pirate Cove-China Cove area of the Corona del Mar beach.

Mrs. Willard Dunlap, 2525 Ocean Blvd., Corona del Mar has been re-elected to the board of directors of the Episcopal Church Home for Children, 940 Avenue 64, Pasadena. Mrs. Dunlap, formerly of South Pasadena, has been a worker for this children's institution for many years.

She is a member of the Altar Guild of St. James Episcopal Church, Newport Beach.

Steps to prevent accidents from batted balls at the Corona del Mar Youth Center field were taken Monday evening by the Newport Beach City Council.

The matter came to the Council's attention because of a letter from Carl Kegley, Corona del Mar attorney, citing the "continuing nuisance and danger" and recalling an injury from a batted ball suffered by Mrs. Charles Harvey, 721 Heliotrope Ave.

He said that older boys, during batting practice at the southeast corner of the ball field, at Iris and 5th Ave., often hit the ball over the low left field fence, onto 5th Ave. and sometimes into the nearby homes.

Charles Rote, president of the Youth Center board, said that the incidents happened during unsupervised play, and have been stopped by moving the batting location to the southwest corner. He added that the board members are considering putting wheels on a small backstop so that it can easily be moved to a desired position.

City Manager Harvey Hurlburt was directed to see that the precautionary steps are taken.

CHINESE, JAPANESE STUDY PLAN DROPPED

Asst. Supt. Norman Loats told the Newport Harbor High School District trustees Tuesday evening that the teaching of Chinese and Japanese will not be added to the curriculum.

He recalled that a preliminary survey had shown 174 students interested in studying Chinese, 109 interested in Japanese. But the actual registration figures, about 95% complete, showed that the interest had been sharply cut to 25 and 13, respectively.

Dr. Loats said that the Oriental language teaching will be reviewed for possible inclusion as a summer school project of the Harbor Institute.

LAD FINDS TORTOISE, NEEDN'T RETURN

Young Tommy Miller of 407 E. Bay St., Costa Mesa, found a desert tortoise last Friday, and on its shell was written the address of Mrs. James Zutavern — 214 Pearl Ave., Balboa Island.

Nrs. Zutavern had given several of these salad plate size tortoises away, this particular one to the Mesa Pet Shop, 447 N. Newport Blvd., Newport Heights. Mrs. Zutavern called the pet shop owner, who decided honesty pays; Tommy could keep the tortoise.

JUDGE CLEARS JUNE ALLYSON'S EX-HUBBY

In the process of being divorced and declared bankrupt, society barber Glen Maxwell finally had a stroke of favorable luck.

Newport Beach Municipal Judge William Christensen dropped charges against him Tuesday for disturbing the peace at the home of his former wife, actress June Allyson, 101 Via Genoa, Lido Isle. The judge dropped the charge, which resulted from an April 11 fracas, because of "lack of evidence." The district attorney offered no objections.

ACCIDENT PROTECTION FOR ONLY \$3.00 PER YEAR! A SPECIAL OFFER TO ALL SUBSCRIBERS OF NEWPORT HARBOR ENSIGN

NEW SUBSCRIBERS to the Ensign can obtain this special coverage for only \$3.00 per year through special arrangements with Pacific Fidelity Life Insurance Company. You need only become a subscriber to the Ensign, or live where the Ensign is delivered, in order to obtain this coverage. AND, if you are not presently a subscriber, you can obtain a subscription to the Ensign for only \$3.00 per year during this special program — this is \$1.00 less than the regular new subscription rate! With this combination program you can receive a year's subscription to the Newport Harbor Ensign and complete protection from Pacific Fidelity all for only \$6.00 per year. You cannot afford to pass up this protection for you and your family.

PRESENT SUBSCRIBERS can also take advantage of this valuable accident protection. You can obtain this policy at the low rate of only \$3.00 per year while continuing your subscription for at least one year.

THIS SPECIAL SUBSCRIBER INSURANCE POLICY PAYS FOR ACCIDENTAL DEATH AND CERTAIN SERIOUS INJURIES:

1. \$15,000 and more for freeway accidents
2. \$10,000 and more for scheduled-airline accidents
3. \$3,000 and more for sports accidents
4. \$1,000 and more for other accidents: Automobile, pedestrian, at home, at work

FREEWAY COVERAGE: More and more drivers are using the expanding system of freeways and express highways throughout California and the nation. Under this policy, \$15,000 is paid for freeway death claims. And \$1,000 is added for each year the policy is renewed. After five consecutive years, the freeway maximum benefit totals \$20,000 — and coverage includes freeways anywhere in the world.

SPORTS COVERAGE: \$3,000 is paid for death and serious injuries in specified sports accidents while you are a participant. Included in this Pacific Fidelity coverage are swimming, skiing, boating, fishing, archery, golf, Little League and other organized baseball, organized school athletics, hunting (in permit areas), skin and scuba diving and horseback riding. Professional sports are not covered under this policy. After five consecutive years, the sports maximum benefit totals \$4,500 — based on a 10% renewal increase each year.

AIR COVERAGE: Subscribers who travel on commercial air schedules anywhere in the world will have \$10,000 in coverage as constant protection with this Pacific Fidelity policy. This year-round coverage is another of the policy's special features. \$1,000 is added for each year the policy is renewed — after five consecutive years the benefit is \$15,000.

BUS AND TAXI COVERAGE: \$3,000 is paid for fatal accidents and certain serious injuries in which the insured is riding either in a hired bus or taxicab. This is a vital coverage feature for travelers everywhere.

OTHER COVERAGE: Many other forms of accident are covered — whether they occur at home, at work, at school, or at play. This policy pays \$1,000 for other accidental death and also provides a specified injury and hospitalization allowance schedule.

READ THESE IMPORTANT BENEFITS!

COVERS ALL AGES: Any member of a subscriber's family is eligible for this outstanding coverage through Pacific Fidelity Life. You may insure anyone — regardless of age. NO physical examination is required. There is NO reduction in benefits for those past 60.

CUMULATIVE BENEFITS: Remember — many benefits increase in value each year when the policy is renewed. In the freeway and air travel categories the policy benefit increases \$1,000 per year for five consecutive years when the policy is renewed.

WORLD-WIDE COVERAGE: No matter where you go — around the corner, or around the world — this special Pacific Fidelity Accident Insurance Policy protects you regardless of any other insurance you may have, including workmen's compensation.

MONEY-BACK GUARANTEE: Your policy includes a guarantee that you have the right to examine the policy for ten days and, if for any reason you are not satisfied with the policy, you may return it and the premium you have paid will be refunded in full.

THIS COVERAGE COSTS ONLY \$3.00 PER YEAR PER PERSON. YOU GET ALL THIS PROTECTION FOR LESS THAN A PENNY A DAY.

This Coverage is made available through special arrangements with

PACIFIC FIDELITY LIFE INSURANCE COMPANY
America's Most Modern Life Insurance Company

In order to keep the cost of the coverage low, some exceptions are included in the policy. Full information provided upon request.

MOTHERS DAY took a special significance this year for Mrs. Nathan Jones, Mrs. Charles Cotton, Mrs. William Cowan, and Mrs. R.P. Connolly (left to right). These 4 Newport Beach women visited sons Dale, Charlie, Jim, and Peter, respectively, at the Catalina Island Boys Prep School during the school's first

ever open house. The federal government took over the school 3 days after Pearl Harbor, and had not encouraged such goings on in the intervening almost 25 years. And where were the fathers while the mothers were posing for the picture? Giving their sons an object lesson on how to play winning softball.

107 'guards' washed out

In recent years competition for the summer job of Newport Beach lifeguard has become very keen indeed. It almost leads one to believe that the image of a lolling, sun-bronzed guard, with nothing better to do than to ignore the advances of fawning females, must be a true portrayal.

Whether it is or not, the recipients of the coveted position do not come by it easily. On May 15, some 127 hopefuls began the annual Newport Lifeguard Service tests to determine seasonal and future permanent assignments to the staff. All but 20 were winnowed out.

Some 64 survived a 1,000-meter swim in the surf. After a half an hour rest they were subjected to a grueling 600-yard run-swim-run-swim competition that narrowed the field to 45. Twenty-five of the remaining were dropped after interviews, while the 20

selected were assigned to a 2 week-end training program. The candidates will be graded during this period, and the topmen hired as lifeguards. The others will be placed on a reserve list.

OCC to stage 'Unsinkable'

Orange Coast College drama instructor John Ford needs "actors, singers, dancers, musicians, stage hands, electricians and painters."

The reason? The OCC drama department's Summer Theater Arts Workshop will present Meredith Willson's Broadway hit, "The Unsinkable Molly Brown," Aug. 4 through 7.

Auditions and registration will be conducted June 21 at 6:30 p.m. in the OCC auditorium. Persons interested in the show, however, may register for "Theater Arts 33AD" during OCC's regular summer session registration period, which will start June 14 and continue on weekdays through June 22. All who participate must register, Mr. Ford said.

"He said he anticipates at least 250 people will be needed to stage the musical. Rehearsals are scheduled for 6:30 to 9:30 weeknights from June 21.

FRIGHTENING VIEW FROM HANDLEBARS, WINDSHIELD
Fifteen-year-old Cary Schwaneke, 451 Bolero Way, West Newport Heights, rode his bicycle eastbound on W. Coast Hwy. against the flow of traffic, May 8, and ran head on into an automobile driven by Jeffrey Ramskow, 235 Prospect St., Newport Shores. The 17-year-old driver was just completing a right turn from Riverside Ave., Mariners Mile, when he so rudely greeted the young bike rider. Cary was lucky, and sustained no apparent injuries, although he later complained of pain in one of his legs. The bicycle fared worse; it had to be left at the scene.

Pupil ratios compared

With the Harbor Area School unification election just over a month away, comparisons between the Newport Beach and Costa Mesa elementary districts are being drawn. Supt. Roy Andersen of the Newport Beach district has heard one set of figures regarding pupil-teacher ratios used which he considers to be incorrect and wishes to spike.

"Reports that the average Costa Mesa classroom contains only 1/2 a student more than in Newport Beach result from figures that are not comparable. It's the same old story of comparing apples and oranges," he explains.

"They include their remedial reading teacher in their figures, while we don't, and there are many other discrepancies in the methods used to arrive at the ratio."

To set the record straight, Asst. Supt. William Ritter of the Newport District and Dr. Reuben Law, Costa Mesa's curriculum director, got together to arrive at these comparable figures:

| PUPILS PER TEACHER | | |
|--------------------|------|------------|
| Grades | N.T. | C.M. |
| K | 24.3 | 27.4 |
| 1,2,3 | 24.8 | 30.4 |

Mutual names manager

The vacancy in the staff of the Corona del Mar office of Mutual Savings and Loan Association of Pasadena, occasioned by the death earlier this month of Vice President Richard T. McCulloch, is being filled by the appointment of Mutual's Vice President Harold R. Dettman as manager of the office.

"Hal" Dettman has been associated with Mutual Savings for more than ten years, both at their Pasadena home office and as manager of their "West Arcadia" office. He is a graduate of Iowa State University and member of Phi Kappa Tau fraternity.

During World War II he served in the South Pacific theater as a first lieutenant of artillery. He is active in Kiwanis and Chamber of Commerce activities. His family includes his wife, Charlotte, 4-year-old daughter, Sandra, and son David, who is 2.

OUT OF THE FRYING PAN

Robert Heavey, who once headed the U.S. Embassy security forces in Leopoldville, Congo Republic, as a Foreign Service officer, will direct the campus police force at the University of California, Irvine, when it opens next fall. As chief security officer for the campus, he will be charged with coordinating campus police activities with city and county law enforcement agencies.

Judge warns Cass Daley

Sentencing of entertainer Cass Daley of Bay Shores has been postponed until June 7 to allow her and her 65-year-old husband, Frank Kinsella, to attempt a reconciliation.

Municipal Judge William Christensen continued the hearing May 18 rather than impose a jail sentence or fine on the 49-year-old comedienne singer. She was convicted by a jury last month of furnishing beer to her son, Dale, 16, and contributing to his delinquency. Fines could total \$1,500,

Ralph Tandowsky, and John A. Vibert.

In outlining the Society's program for the 1965-66 concert season, Mr. Steen announced at least 5 concerts by the Los Angeles Philharmonic Orchestra with Zubin Mehta, musical director, and guest conductors and soloists of world renown, a guest appearance of the Cleveland Symphony Orchestra, George Szell conducting, and additional concerts to be announced at a later date.

\$9 MILLION BUDGET FOR JUNIOR COLLEGE

A tentative 1965-66 budget of \$9,089,674 has been presented to the Orange Coast Junior College District trustees.

District Supt. Norman E. Watson said the main item is \$4,018,351 for "capital outlay," of which almost \$3 million is in reserve for construction of Golden West College in Huntington Beach.

The preliminary budget is based on a tax rate of slightly more than 53 cents per \$100 of assessed valuation.

No tax increase over the 1964-65 fiscal year is forecast.

New group aids clinic

South Coasters, a group of married couples in the Harbor Area, have organized as a new supporting group of the South Coast Child Guidance Clinic. Their purpose is to raise funds for the low-fee psychiatric clinic for children in Newport Beach.

Dr. Jerrel Richards of Lido Isle was elected president of the South Coasters at a party at the home of Clinic President John M. Rau of Balboa. Other officers are Hancock Banning III, first vice-president; Mrs. David Land, second vice-president; Patrick Chase, treasurer; and Mrs. Edwin Finster, secretary.

A new members party will be held in June in the home of Dr. and Mrs. Norman Wat-

son, 407 Evening Star Ln., Dover Shores.

The original organizational gathering of the group was held in the home of Mr. and Mrs. Robert Barneson. Mrs. Barneson, vice president and membership chairman of the Clinic Board, introduced Dr. Richard J. Hunter and Dr. Stuart Wilson of the Clinic staff, who presented a case history typical of the patients being treated at the South Coast Child Guidance Clinic.

After hearing of the functions of the Clinic, a group decided unanimously to organize the South Coasters as a benefit sponsoring group "limited to enjoyable fund raising with few business meetings."

Lido sailors will race in Nationals at Detroit

Two Lido Isle Yacht Club junior sailors, George Vandervort, skipper, and Judy Dingle, crew, will participate in the North America's Intercollegiate team races to be held in Detroit, Michigan, June 20-27.

Both Vandervort and Dingle were awarded the Walter C. Wood Perpetual as part of the winning team in the Inter-District team races representing San Diego State College.

Recently the San Diego State Sailing Team (The Aztec Sailing Club) scored an impressive victory over eight other colleges to qualify to compete in this year's Nationals for the fourth consecutive year.

Before the 1920s, if a man wore a coat that didn't match his trousers he was either going on safari or had a disorganized closet. Not so today. A carefully un-matched sportcoat and slacks is the mainstay of a man's leisure wardrobe.

It's a good thing, too, or we'd have Newport's best selection of non-selling sportcoats and slacks; not to mention sportshirts and sweaters.

This year, if you can't afford both a vacation and a wardrobe, buy the wardrobe here and let your mind wander.

We thank you.

FLAG PLEDGE BOOSTED

The Parent Faculty Organization has made a gift to Harbor View School of a portable public address system. It will be used at Friday morning flag raising ceremonies.

Fishing bill wins support

A bill by Assemblyman Robert F. Badham (R., Newport Beach) to ban commercial fishing on the seaward side of Catalina Island, and preserve it as a recreational area, has mustered support in Sacramento and from sportsmen's groups.

The powerful Ocean Fish Protective Assn. voiced its support at last week's meeting of the Assembly's Conservation and Wildlife Committee.

Thirty-two Assemblymen, many from the southland where alarm has been voiced because the seaward waters are being fished out by commercial boats, backed the Newport Beach lawmaker's bill.

The Senate's Fish and Game Committee will schedule the bill for early hearing, according to Sen. Aaron W. Quick, chairman. Support in the upper house is expected to be overwhelming, Badham said.

Mr. Badham's measure, AB 2098, designates the waters around Catalina Island for 3 miles on seaward side as a recreational area, prohibiting all commercial fishing excepting for abalone and lobster.

Weeds to roses for OCC

"Tumbleweeds to Roses," a history of Orange Coast College, will be published June 6.

The first copy of the 300-page hard cover volume will be presented to Dr. Basil H. Peterson, founding president of the college, on the same day. The presentation will be made at a public book signing fete in the OCC Student Center lounge from 2 to 4 p.m.

The book is the composite work of 18 authors - faculty members, former students and administrators. "Tumbleweeds to Roses" traces the development of Orange Coast College from a windswept, obsolete Air Force base to an institution with a day and evening enrollment of more than 15,000 students.

"Tumbleweeds" in the title comes from the condition of the campus when Peterson first visited it in 1947. "Roses" comes from the 1963 Orange Coast College Pirate football team which won the national junior college gridiron championship in the Pasadena Jr. Rose Bowl classic.

Chief editors for "Tumbleweeds" were A.E. Anderson of Laguna Beach, a former professor of English at the University of California at Berkeley and a part-time teacher at Orange Coast; Mrs. Thelma C. Harwood, a Red Cross volunteer worker on the air base during World War II and long-time secretary to Dr. Peterson; and William F. Kimes, OCC assistant superintendent for business since the college was founded.

EUNICE HENNINGER, 403 E. Balboa Blvd., Balboa, caught this 22-lb. halibut near San Onofre while fishing from the sportfisher out of Art's Landing in Balboa. A big run of halibut is under way at San Onofre.

Finale for Library Friends

The Newport Beach Friends of the Library will end an active year with a salad luncheon to be held Wednesday, June 9, at the bay front home of Mrs. Horace Benjamin, 1024 E. Balboa Blvd., Balboa.

Plans are under the direction of Mrs. Garth Bergeson, president, and her committee, comprised of the executive board and committee chairman: Mmes. Frederick Strauch, Richard Lawrence and Laurence Wright, who is the coordinating chairman for the luncheon.

A musical program will be presented by the Newport Beach elementary school. The business meeting will consist of reports for the past year, projected plans for the coming year, and introduction of nominees for office for the coming year. Reservations are to be made by June 5 at Oriole 3-1480.

Answer from the Assembly

by
Robert E. Badham
Assemblyman
71st District

Every housewife in California - and many others throughout the nation - will be paying higher prices to feed their families because of bungling of California's acute farm-harvest program by Gov. Edmund Brown and Labor Secretary W. Willard Wirtz.

And every man who has to buy his meals in restaurants will be paying more, too - because of the almost unbelievable ineptitude of those two alleged "leaders."

Gov. Brown appears to have paid off the labor unions by his stubborn insistence that domestic workers were plentiful and willing - and would thus be fit subjects for unionization so they could pay dues to the labor barons.

Secy. Wirtz was taken in by Gov. Brown on the plea to end the bracero program - and he couldn't retreat gracefully no matter how he tried. Token forces of imported labor to save some crops were too late.

They have at once achieved the economy of scarcity, the specter of spiraling prices, the criminal loss of foodstuffs in the fields and the losses of thousands of jobs and millions of dollars in income.

The abortions of their public trust by these men became

the basis for my demands for impeachment of Gov. Brown and the removal of Secretary Wirtz.

I am convinced that both have outlived their usefulness; the public has no more faith in these men. They have imposed their will on the farmers of California and on the state's agricultural empire - and they have been wrong on every score.

TRI-HI Y CLUB SENDS CLOTHING TO TIJUANA

Iyo Ki Tunda, a freshman Tri Hi Y club, recently collected food and clothing which were delivered to the Red Cross office in Tijuana, Mexico, to aid the many destitute people of that area. Those participating in the visit to the border and distributing the articles included Karen Schorg, club president; Sue Meyer, vice president; Sharon Hoedemaker, councilman; and Judy Goodell, service chairman.

NOT THE WAY TO REGAIN HIS DRIVER'S LICENSE

James Bartlett, 26, of 418 Esther St., Costa Mesa, led a Newport Beach patrolman on a merry automobile chase through West Newport at 8 a.m. May 11. He was first sighted speeding at 55 mph in a 25 mile zone on W. Balboa Blvd., causing 3 children crossing at 38th St. to run from his path. At 36th St. he rolled through a flashing red light, then accelerated to 60 mph, slowed to negotiate a "U" turn at 33rd St., made a quick left turn at 34th St., another on Seashore Dr., and a 3rd into the alley between 33rd and 34th Streets, where he stopped.

The patrol unit was successful in tailing him to his hiding spot, and he was arrested on a charge of reckless driving. The reason that he had fled was because his driver's license had been suspended.

BALLOON RACE FIZZLES

The 2nd annual Catalina Island to Newport Beach balloon race, which had been set for June 5, has been called off because of financial difficulties. Promoter Mark Semich made that announcement last week, explaining it was due to the loss of backing by television program sponsors, who had a timing difficulty and would not be able to participate.

INVEST in YOUR COMMUNITY - BUY LOCALLY

We'll cast our wreath upon the sea from the end of Newport Pier at high noon on Decoration Day.

We will pay our respect to the memories of all those who have gone before, from our harbor, across the sea, on foreign soil. We will record our respect to friends, and family, and the great unknown who have left their touch on the pathways of life.

This is a good time for all to join in tribute to those thousands from our shores who are in Viet Nam, and far to the other side of our nation in defense of Freedom and Liberty in Santo Domingo.

Originally Decoration Day, or Memorial Day, was set aside in memory of those Americans who had laid down their lives in the war between the states.

On our Memorial Day the President of the United States will place a wreath on the tomb of the "Unknown Soldier" at Arlington National Cemetery. This ritual will be repeated in cities and towns large and small throughout our country.

In the Newport Harbor area we have the Hoag Memorial Hospital, a living remembrance to the great man with twinkling eyes whose family have so generously endowed this great facility in memory of George Grant Hoag, who loved our community. We have other small memorials, one commemorating the "old Landing" on the inland side of the Coast Highway, westerly of the Upper Bay Bridge; we have the Glenn L. Martin Memorial at the pierhead in Balboa. The Martin Memorial marks the area from which the brave plane builder flew on his first over-sea flight to Avalon.

There is the Memorial Flagpole at the City Hall dedicated to all of the men of this community who lost their lives in the World Wars. It must be properly wreathed.

In the almost one hundred years since the first official "Memorial Day" was observed on May 30, 1868, many brave Americans have given their lives in protection, defense and furtherance of Freedom and Liberty guaranteed to each and every citizen of the United States of America.

We still observe "Armistice Day" as Veterans Day and there are those who gather again on V-E or V-J day.

It is particularly fitting that we in this wonderful area of our free land gather for a brief time this Sunday, Memorial Day, in reverence and recollection, in remembrance of all of those who have gone before, and join in prayer for the safe return of those far afield now in defense of freedom in far corners of this world of ours.

This is a good day for each, in addition to a small wreath, to make a gift -- "IN MEMORIUM" to his favorite charitable foundation which strives to build a better future.
